WHEREAS, the Commission's Health Facilities Program is guided by its Health Care Steering Committee, and

(330 clinics) and Sub-regional clinics

WHEREAS, Commission staff has identified construction-ready, primary care clinic projects and

WHEREAS, prioritization for "other than primary care" is underway and is expected to identify a number of high-priority, construction-ready projects.

NOW THEREFORE BE IT RESOLVED, that the Commission allocates up to \$26,175,000 for primary care facilities contingent on Congressional allocation of necessary funds and subject to projects meeting Commission Guiding Principles and Policies, and

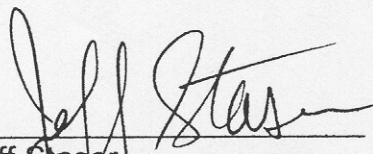

BE IT FURTHER RESOLVED, that the Commission allocates up to \$8,000,000 for the list of projects tentatively identified by staff and recommended by the Health Care Steering Committee. This allocation is also contingent on Congressional appropriation of the anticipated HRSA funds, for "other than primary health care" projects. Funding of specific projects is subject to demonstration of project compliance with all applicable Commission Guiding Principles and Policies. Final approval of projects will be made by the Infrastructure Subcommittee or the full Commission. Any of these funds not allocated to specific "other than primary care" projects by July 1, 2004 shall be utilized for primary care projects.
